

# IL GRAFICO DEL GIORNO

**Disuguaglianze di genere  
Cosa ci dicono i numeri?**

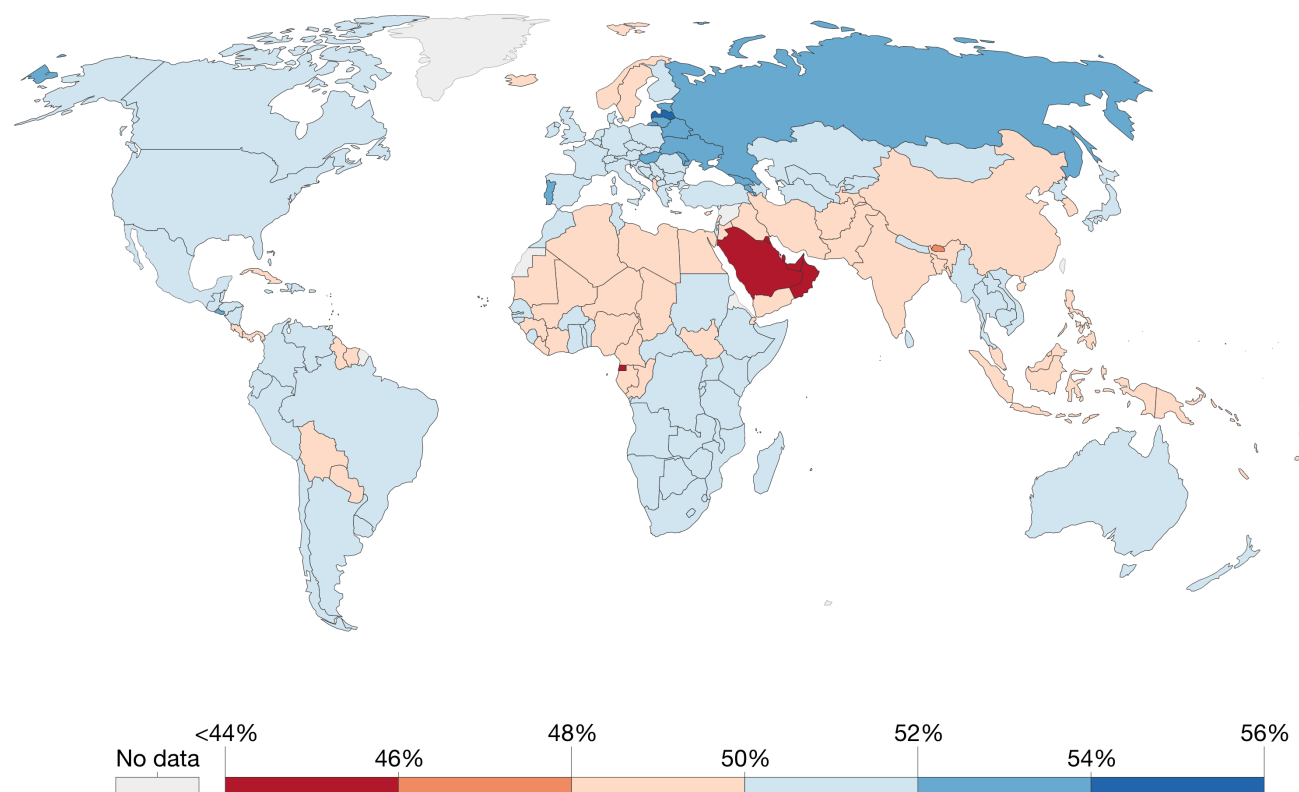

*«Io vorrei che tutti cominciassimo a sognare e progettare un mondo diverso. Un mondo più giusto. Un mondo di uomini e donne più felici e più fedeli a se stessi. Ecco da dove cominciare: dobbiamo cambiare quello che insegniamo alle nostre figlie. Dobbiamo cambiare anche quello che insegniamo ai nostri figli»*

*Chimamanda Ngozi Adichie, Dovremmo essere tutti femministi*

# Quante sono le donne nel mondo?

Share of the population that is female, 2017

Our World  
in Data

Source: World Bank

Note: Population is based on the de facto definition of population, which counts all residents regardless of legal status or citizenship.

# Gender Inequality Index

Gender Inequality Index from the Human Development Report, 2015

This index covers three dimensions: reproductive health, empowerment, and economic status. Scores are between 0-1 and higher values indicate higher inequalities.

# Partecipazione delle donne al mercato del lavoro, vs. uomini

## Ratio of female to male labor force participation rates (%), 2017

The female-to-male ratio of labor force participation rates is calculated by dividing the labor force participation rate among women, by the corresponding rate for men. The labor force participation rate is defined as the proportion of the population ages 15+ that is economically active. All figures correspond to 'modeled ILO estimates' (see source for details).
